EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In specification page 3, line 4 delete "no" and insert therefore ---not---.

2. The following is an examiner's statement of reasons for allowance: The prior art discloses a variety of patient tables or supports that are moveable to put the neck in either extension or flexion through lifting panels which alternatively elevate the head or upper body, as shown in US 5640958, figure 1a and US 5724970, figures 12a and 12b. Additionally, as shown in US 5305750, inflatable portions are used to either lift the head or the neck in order to put the patient in the proper position. The prior art does not teach the limitations of the independent claims 1, 7, and 13 including providing both an extension support pad and a flexion support pad that does not contact the patient's neck. Rather, the closest prior art discloses being able to adjust the support means into either an extension position or a flexion position, but both are not provided separately or are not capable of being provided simultaneously.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
